

Letters of the Month:

K - Kitten, Knock, Kite
I - Ice, It, In
V - Volcano, Voucher, Very
J - Jack, Junk, Jacket

What will the Rhinos Explore this Month at our Enrichment Centers?

Math: We will explore measurements and learn to use a simple scale.

Literacy: We will create our own story about animals from classmate's contributions.

Art: Rhinos will create finger print dinosaurs and use textured material to represent their skin.

Science: We will have lots of fun planting seeds and making observation about how it grows.

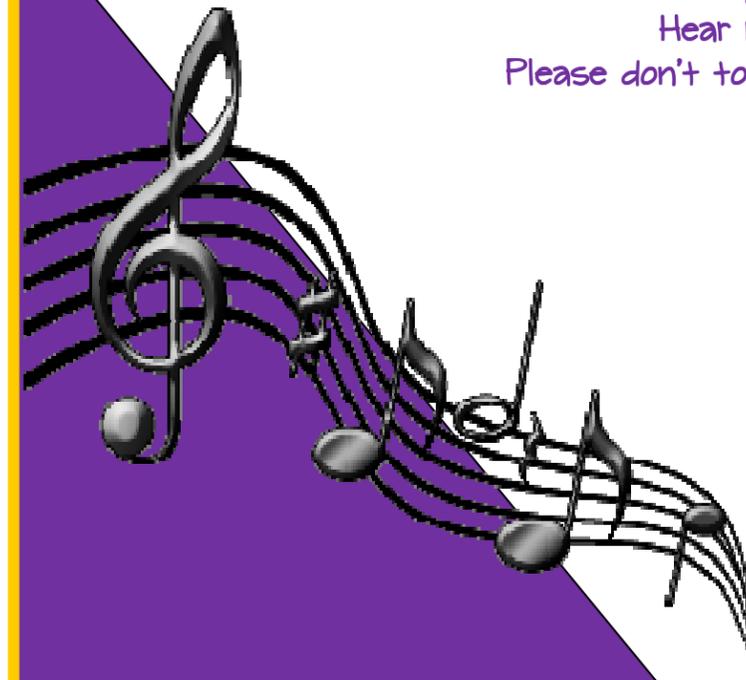

Music & Movement: We will create our own dance by contributing our own dance steps.

Rhinos' Favorite Tune...

I am a little penguin

I'm little Penguin
Round and fat
Here is my beak, here is my hat
Winter days are coming
Hear me shout
Please don't toss my mittens out

Teacher Fun Facts:

- * Ms. Jeet is hoping for snow so she can make a snowman and go sledding with her kids!
- * Ms. Janice is planning to do indoor winter fun. She is planning on baking, reading and playing some board games with her daughter!

The Rhino Review

January 2012

Winter is here and our Rhino friends are very excited to start the New Year of exploring and discovering. Miss Jeet and Miss Janice are already planning to present some new and interesting projects. While we spend lots of time indoors, it's time to focus on stimulating indoor activities to strengthen our fine motor skills. It's New Year, watch us grow and also let's hope for some snow!!!

What's Going on This Month...?

1/18 Pajama day

1/19 Lil'Sports

December Birthday's

Meredith Fisher
1/5/06

The Mitten By Jan Brett

The Mitten is a Ukrainian folktale, a boy named Nikki loses his snow white mitten his grandma made for him. He couldn't find it in the snow but the animals did. Rhinos were surprised to see a bear, mouse and eagle in the Mitten.

-Ms. Jeet

Dinosaur named Sue By

This book provides a very detailed discussion about Dinosaurs and how the scientist discovered Sue.

The book explains how the specialists in fossil cleaning-cleaned, ordered, and classified the fossils. "Putting the Puzzle Together" shows the process of reconstructing the dinosaur from blueprints to the construction of the final display.

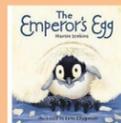

-Ms. Janice

The Emperors Egg By Martin Jenkins

This is one of my favorite winter books about Penguins. It is a great story about Daddy and Mommy caring for their Egg. This book teaches about the birth cycle of a penguin. Daddy Penguin has to protect egg for two months while mommy penguin is off to search for food
